Philadelphia, 11; Brooklyn, 7. The Phillies played all around Brooklyn esterday in Philadelphia and won by the core of 11 to 7. Bernhard pitched splendidly for the Quakers, keeping the hits cattered, while Kitson was comparatively easy. The fielding of the champions was very ragged, Jennings, Kelley and Smith being the worst offenders. Following is the score by innings:

score by innings: 

New York, 10; Boston, 10.

The New Yorks and Bostons played an xciting game at the Polo grounds yesterday, where the Giants by hammering five runs across the plate in the ninth inning tled the score. The tenth inning was started, but after Boston had scored three runs the game was called back to the ninth by Umpire Connolly. Selbach, Doyle and Davis were fined \$5 each during the excitement. Following is the score by in-

St. Louis outplayed Chicago at every point yesterday, on the grounds of the former club, yet was defeated by the score of 11 to 8. The splendid work of the Browns since the season opened all went for nothing, as the players were apparently

unable to get around the bases, while the tremendous chances taken by the Colts scored enough runs to win the game. Fol-lowing is the score by innings: St. Louis...... 0 0 0 3 0 1 4 0 0 - 8 Chicago...... 0 1 0 1 0 3 0 0 6-11 Earned ran.—St. Louis, 3; Chicago, 7. Two-base hits—Burkett, Mertes, Everitt (2), McCarthy, Clingman, Heidrick, Callahan. Double plays—Clingman to Childs to Everttt (2), Sacrifice hit—Criger. Three-base hits—Wallace, Powell. Hit by pitcher—McGann. First base on balls—Off Powell, 1; off Callahan, 2; off Young, 1. Wild pitch—Callahan, Struck out—By Callahan, 1; by Powell, 1; by Young, 1. Umpire—Mr. Hurst. Time of game—2 bours and 25 minutes.

Cincinnati, 12; Pittsburg, 11. Over 11,000 spectators gathered on the

Pittsburg grounds yesterday to witness the opening game of the season between the home club and the Cincinnatis. All the pitchers in the game were hit hard, but Hahn did well until the ninth inning, when he went into the air as a result of the vigorous coaching of the spectators and the Pirates chased seven runs across the plate, within one of tieing the score. Following is the score by innings:

Base Ball Notes Philadelphia is back in first place.

Jimmy Siagle's playing was once more the feature of the game in Philadelphia

Selbach tied the score in New York yes terday with a home run, and it will be interesting to watch "Sel's" playing from new on. There is not a better player in the big league than the German Senator when things begin to break in his favor. "Cupid" Childs is playing a great game for the Chicagos, his second base fielding and batting being reminders of the days when Clarence was at his best.

The result at St. Louis yesterday must be taken with a grain of salt. A win by the Chicagos means big business for both teams in the latter city for the next three days, and the Colts were in for a cold reception at home otherwise.

Charley Irwin has evidently regained his batting eye, his work with Cincinnati so far this season being of the gilt edge quality. With Irwin batting around .300 the Reds' management need not look further for a third baseman.

Professional clubs in need of a short stop should keep "tab" on Moran of the George-towns. It has been given out the beautiful the control of t new on. There is not a better player in

Professional clubs in need of a short stop should keep "tab" on Moran of the Georgetowns. It has been given out that he will not play professionally, but a good stiff financial proposition might make him change his mind. He has all the earmarks of being a second McGraw, being alert at all times to the fine points of the game, and as a hitter and fielder he is in the very first class.

and as a fitter and fielder he is in the very first class.

The veteran Van Haltren is playing, if anything, better ball than ever in center field for New York this season. Several of his plays have been remarkable, his throwing being extremely accurate, and at the bat Van is hitting away over the .300 mark.

Manager Fred Clarke of Pittsburg got off
Manager Fred Clarke of Pittsburg got off

Manager Fred Clarke of Pittsburg got off a good one at Cincinnati the other day. The Pirates had just defeated the Reds, and he was asked for an opinion of his club. He said he couldn't tell yet, as they had not faced any first-class clubs.

There were three men on the bases for the Pirates in Cincinnati when the triple play was made the other day. O'Brien drove a hot liner to Irwin at short, and as all runners had started with the crack of the ball against the ball to Steinfeld and then to Beckley at first. It took the crowd some time to realize the importance of the play, but when it did the enthusiasm was something tremendous.

some time to realize the importance of the play, but when it did the enthusiasm was something tremendous.

Walter Brodie yesterday signed a contract to play for Comiskey's Chicago Western League team at a salary of \$1,900 for the balance of the season, and will leave for his new field today.

Fred Clarke made this sensible statement to Ed Grillo at Cincinnatiyesterday: "There is no way for me to tell how strong we are until we have played every team in the league. When we have been over the circuit I will be able to size things up," said he. "We looked very strong today because we were hitting timely and the Reds were not hitting, but, under reversed circumstances, we would look like lobsters tomorrow. The winners always look stronger than the losers. A man who makes any claims this early in the season is foolish.

It will not be a walkover for any one of the teams this year. It is going to be a case of hustle from start to finish. It will be a great race. There are no weak teams in the league, though some look stronger on paper than others. We have a strong team and will play every game we can, but further than that it is too early to say anything."

STARTERS IN KENTUCKY DERBY. Some of the Famous Sprinters Which Have been Entered. LOUISVILLE, Ky., April 27.—Secretary

LOUISVILLE, Ky., April 27.—Secretary Price of the new Lauisville Jockey Club said today that at least ten horses would start in the Kentuchy derby on Thursday next. Among the starters are Lieut. Gibsen, Kentucky Farme, Thrive, F.W. Brode, Florizar, Highland, End. Orontas, Flaunt, Dieudonne and His Excellency. George Long's Hindus is also a probable starter. The track at Churchill Downs is now in good shape. Flaunt was sent a mile and an eighth in 1.57 yesterday, the mile being covered in 1.43. Lieut. Gibson and Kentucky Farmer will be worked today the full derby route.

Tomorrow's Game at Georgetown. Tomorrow afternoon Georgetown will play the strong University of Maryland team. Maryland, it will be remembered, was barely beaten by Yale a few weeks ago. There are not many more games to be played at Georgetown before the team leaves on its

Georgetown before the team leaves on its northern trip. Manager Greeny will tomorrow return to the plan of admitting ladies free of charge to the grounds and stand. It will be Bob Blewett's turn to pitch tomorrow, and the big fellow is in perfect condition.

Next week, Wednesday, Washington will have its first opportunity of seeing the Carlisle Indians. Manager Greeny has succeeded in his efforts to secure them for a game on the day mentioned. The red men are quite as skillful on the ball field as they are on the gridiron, which means that Georgetown will have a hard road to travel if the braves are to be sent home with their feathers ruffled.

Tomorrow's game will start at 4 o'clock.

"HOGGING THE STAGE."

Phase of Human Nature That is Manifested in Various Places. "Won't you please tell me," she said, after

they had watched the villain ruthlessly pursue the heroine through four acts, with the hero a close and panting second, "what a paragraph in The Star meant about a celebrated actor whose penchant was to 'hog it' when on the stage? Did he bring a little pig with him?"
"No, Miss Innocence," he answered,

"that particular actor, nor any other given to the 'hogging' habit, was not accompanied on the boards by a porcine, four-legged piece of ham and pork tenderloin. "Human nature, you know, is about the

same in all parts of the world, among all races of man, and is exhibited in all callings and places. And actors on the stage are no exceptions to the rule. It is an exemplification of taking advantage of the main chance by some who have the temerity of the stage.

emplification of taking advantage of the main chance by some who have the temerity or the position, by virtue of their rank in the company, to do so.

"An illustration of temerity lies in this brief history to success: A rather pretty and very bright and fivacious little actress was one of the leading members of a vaudeville stock company playing in this city a couple of seasons ago. While here, constituting one of a semi-circle of a chorus of damsels, she was given to the habit under discussion, and she would break in upon the song or the act of a fellow member with smirks and funny twistings of the features and smiles, or with frisky kicks and swish of skirts, according to the character of the song or sketch she was forcing herself into.

"Of course, she had no superior right to do this little side performance over the other members of the company, and if they had all been selzed with the same inclination you might picture what the stage would have resembled. But it was her way, and as she was a general favorite it was overlooked by the management, and she frolicked at will, during the time she appeared here. It gave her, of course, a local reputation, and she received considerable appliause.

"Last season the young lady was engaged

reputation, and she received considerable applause.

"Last season the young lady was engaged to appear in a non-speaking part in a Boston theater. But the audience could see her all right, and that was all she needed. The first night of that show was a revelation. Whoever else the audience may not have seen on the stage, they saw her. She put her Washington training into evidence with a vengeance greater than the aged father demands in the piece we are at present witnessing. She smirked and grinned and cavorted when the opportunity presented, that took the breath away from her fellow members on the stage. They didn't know what they were running up against, but found out the next day when the critics said that 'this brilliant-hued little girl from Washingtor' was the success of the plece. There were heartburnings among the lady members sufficient to raze the theater to the ground, but to no avail. She had won her success, and the theater-goers of the hub worshiped at her shrine, while the management gave her a big salary, got a contract, and begged for the sake of all she revered not to get sick, but to show up every performance.

"This little lady proved herself a genius at 'hogging' the stage, as she made herself famous in a single night.

"Actors fully appreciate the advantage to be gained by hogging the stage or their parts, and will do so at every opportunity. Much ill-feeling results, but nevertheless they will do it. It is an acknowledged thing and an undisputed right for the star to hog the stage, his part and the entire play, predicating his privilege upon the fact that he is the star and that the public come to see him and not the rest of the company.

"This phase of human nature is exemplified in the actions of the man who hogs the end seat in a street car or the entire seat in a railway car with his baggage and

It will be observed from the above that each person showed an increase in sturdy strength, brought about by leaving off coffee and the use of Postum Food Coffee. The reason for this experience is that the poisonous alkaloids contained in regular coffee, prostrated the nervous system, bringing on all forts of nehes and alls, and distinctions than the contained in the coffee of the contained in the coffee of the contained in the coffee of the coffee o system, bringing on all-forts of nehes and alls, and disintegrating the delicate cells in the nerve cen-ters, destroying and throwing out the elements absolutely required by Nature for maintaining good, sound, nervous strength and health.

It is then baked dry and then ground into the requisite fineness and uniformity, as sharp sand would be likely to become wedged in the opening between the two sections of the glass. The sand is then introduced into the glass through an opening left for that purpose in the end of one buib, the opening then being sealed. ## Aluminum Cooking Utensils.

You can readily see the advantages of aluminum cooking utensils. Greatest is that the food cannot scorch or burn.

They are clean. And will not wear off like in and copper. All these advantages make them the most economical utensils you can buy. Frying Pans, Saucepans, Skillets, Tea Kettles, etc.

times. The type usually sold is that repre-sented in pictures of Father Time. The sented in pictures of Fainer line. Insecuter glass appears very large to those who have never seen one, standing six of seven inches high, but this seemingly large size is necessary in order to accommodate a considerable quantity of sand.

### Q dhe Merson ONUNUMO BUILT TO WEAR The Two Best Judges of a shoe are the manufac-turer who makes it and the cobbler who repairs it. Ask any manufacturer who makes the best shoe — he will claim the honors himself; ask any cobbier - he will tell you the Emerson Shoe. Why? Because most \$3.50 shoes that are imitations of the Emerson rarely get so far as the cobbler's bench. Emerson Shoes will stand re-soling several times. "Ask your several times. "Ask your cobbler." Sold only in thirtytwo Emerson stores. \$3.50 \$5.00 Goodysar 5.00 Hand Welt. Have you seen our new Orthopedic shoe? Emerson Dressing cleans better, preserves better, and polishes better men's, women's, and chil-dren's shoes than any other dressing. We use fast-color eyelets in all R. B.
